

## Blues Clues

[Intro]

Keep it a hundred...one hundred  
Keep it a hundred, a whole hundred

[Chorus]

Keep it a hundred bro this life get kinda difficult  
I be numbing all my pain with what I'm sipping on  
Drop a hundred every time I hit the liquor store  
Cuz I need something that's gon really put me in the zone  
Get me feeling like mmhmm  
Take me out my feelings, I'm cool  
Money looking like Blue's Clues  
Maybe it could hide the fact that I'm blue

[Verse 1]

Been a lot of things fucking with my head space  
Had to take a couple weeks to get my head straight  
I been drinking lots of water, I been meditating  
But it still don't hit the same as when I'm medicated  
(Uh, uh) Marijuana, that's my medication  
I be feeling kind of funny when we separated  
(Uh, uh) It's a sauna up in my location  
Way I'm always blowing bomb, I need some ventilation  
I fuck around and take the roof off  
When I play this in the car it's getting too hot  
Sipping Moet, it help me cool off  
Been breathing fire on the song like I'm from Mulan

[Chorus]

Keep it a hundred bro this life get kinda difficult  
I be numbing all my pain with what I'm sipping on  
Drop a hundred every time I hit the liquor store  
Cuz I need something that's gon really put me in the zone  
Get me feeling like mmhmm  
Take me out my feelings, I'm cool  
Money looking like Blue's Clues  
Maybe it could hide the fact that I'm blue

[Verse 2]

(Oooh) And some days  
I just want to disappear, I want to run away, might just...  
Have to catch a one-way  
To somewhere where ain't nobody even know my name, but I...  
Got to keep it pushing for my partners and my family  
The only ones that understand me  
Got to count my blessings, every single one I'm handed  
'Til I'm the last man standing  
Said I won't back down easily  
I'm finna rap off my ass 'til these motherfuckers hear me

Cuz on the track, this the real me  
Let me hear you holler back if you motherfucking feel me

[Bridge]

Let me hear you holler back if you motherfucking feel me  
Let me hear you holler back if you motherfucking feel me

[Chorus]

Keep it a hundred bro this life get kinda difficult  
I be numbing all my pain with what I'm sipping on  
Drop a hundred every time I hit the liquor store  
Cuz I need something that's gon really put me in the zone  
Get me feeling like mmhmm  
Take me out my feelings, I'm cool  
Money looking like Blue's Clues  
Maybe it could hide the fact that I'm blue
