

Involved

[Chorus]

Everybody talking that talk, I ain't getting involved
Opps wanna see me fall, I'm just stacking my money real tall
It get hard when your feelings get involved
So I keep a hard heart and I always play it off
I'm just stacking my money real tall, stack it taller than Lebron
If I don't do nothing Ima ball, when I'm in the stu I ain't taking no calls
It's hard trusting people with your heart
So I love 'em from afar and I hardly get involved

[Verse]

Gotta keep my circle small 'cause I got trust issues
These squares will talk that talk to you, then switch up and diss you
When I'm all alone with my thoughts I wonder what I'm missing
I just dropped something at the mall but I don't feel nothing different
Naw, these things won't keep my company
Name brand keep me comfortable, and I'm in love with luxury
But I can't love no company 'cause it can't give no love to me
Sound just like everybody I meet, I been on my grind since dungarees
Please, now they tryna creep back
Into my life, I don't need that. Y'all ain't talking money, that's cheap chat
Riding 'round the city with my seat back, Bimmer sitting low like a meerkat
Had a bitch say I wouldn't be shit back in highschool, bet you wish you could delete that

[Chorus]

Everybody talking that talk, I ain't getting involved
Opps wanna see me fall, I'm just stacking my money real tall
It get hard when your feelings get involved
So I keep a hard heart and I always play it off
I'm just stacking my money real tall, stack it taller than Lebron
If I don't do nothing Ima ball, when I'm in the stu I ain't taking no calls
It's hard trusting people with your heart
So I love 'em from afar and I hardly get involved
