

Stay Away

[Chorus 1]

Didn't wanna end it like this but if I'm being honest
I can't really go on like this, girl I'm exhausted
I got everything to lose and nothing to gain
From putting up with you and your fucking games
I was such a fool for thinking you'd change
Stay away

[Verse 1]

Fuck up out my place
Girl you gotta skate
I don't want you in my space
Go light years away
Always buzzing in my face
Why you had to say that?
All you do is bring me pain
So you've been replaced

[Pre-Chorus 1]

I can't spend my time with you cuz that's a waste
You know the way you treated me was a disgrace
You broke my heart and left a void all in it's place
And I almost couldn't take it but I got money I gotta make

[Chorus 2]

And I don't wanna end it like this but if I'm being honest
I can't really go on like this, girl I'm exhausted
It's everything to lose and nothing to gain
From putting up with you and your fucking games
I was such a fool for thinking you'd change
Stay away

[Verse 2]

Far far far away
Just like Star Wars
Yeah I'm talkin Jar Jar and them
You should join the dark side
I bet you would be right at home
And change your name to
Darth stupid fucking bitch
You did me wrong
Thought you was so hot
Then you burned me
Now my heart is cold
Mines is from Toronto
So that shit is really nothing for me
I mean from the start
I could tell that it was something off

I ignored the cards
But I guess I shoulda seen it coming
That's my fault

[Pre-Chorus 2]

But I can't spend my time with you cuz that's a waste
You know the way you treated me was a disgrace
You broke my heart in like 400 different places
And I almost couldn't take it but I got money I gotta make

[Chorus 3]

Didn't wanna end it like this but if I'm being honest
I can't really go on like this, bitch your just toxic
It's everything to lose and nothing to gain
From putting up with you and your fucking games
I was such a fool for thinking you'd change
Stay away
