

## Leave Me Alone

[Intro]

Shit getting better for me, ain't had pockets as heavy as these (yeah yeah)  
But I still think I'm missing a piece, having trouble with getting to sleep  
What happened? It's like my head is getting backed up  
But I been picking my slack up 'cause I don't wanna move backwards (nah nah)

[Chorus]

I gotta keep it going, work don't stop even if I'm feeling off  
Just leave it alone, I don't wanna talk about it just leave me alone  
E pills put me in the zone, I be catching deep feels when I'm rolling on 'em  
Seen this female look like Nia Long, but I'm married to the skril so leave us alone

[Verse 1]

(Yup) cheese getting long  
All about that mozzarella and that parmesan  
(Ay) I ain't no vegan  
But if you tryna start some beef then I'm already gone  
Quarter pounders, I'm smoking on 'em  
Everywhere I go it's loud, I won't turn it down  
I be diving in the crowd like Joey Ramone  
Rock Balenciagas with my shredded denim on  
(Yup) Trip Rexx, who you betting on?  
I'm in love with big checks, I don't need no one  
We gon have a big wedding, that's a matrimony  
'Bout my paper 'til death like I'm Michael Scott

[Chorus]

I gotta keep it going, work don't stop even if I'm feeling off  
Just leave it alone, I don't wanna talk about it just leave me alone  
E pills put me in the zone, I be catching deep feels when I'm rolling on 'em  
Seen this female look like Nia Long, but I'm married to the skril so leave us alone

[Verse 2]

Fuck you want? I don't know  
I'm just getting dough, you should move along  
Stack it tall, on my tippy toes  
I just want a lot, then I need some more  
Whoa whoa whoa, this world so  
Ice cold, yeah I know it so my heart is froze  
Whoa whoa whoa, I'm about to blow  
Cut out all of my emotions, I'm really focused  
Been a wizard with the songs, call it hocus-pocus  
And I'm sipping something strong, Harry Potter potions  
I just call that shit Patrón-us, it get me going  
Really put me in the zone, if you know you know

[Chorus]

I gotta keep it going, work don't stop even if I'm feeling off

Just leave it alone, I don't wanna talk about it just leave me alone  
E pills put me in the zone, I be catching deep feels when I'm rolling on 'em  
Seen this female look like Nia Long, but I'm married to the skril so leave us alone
