

## **Whatchu Want**

[Chorus 1]

Tell me what you want  
God damn baby girl, just tell me what you want  
Off the Henny and it's hard to tell what's on your mind  
So tell me what you want  
I don't wanna hear you bring that shit up later on  
Go ahead and just reveal it to me  
I don't wanna have to figure out subliminals  
Nah nah, tell me what you want  
It ain't hard to tell me what you want

[Verse]

She get mad when I don't pick up my cell phone  
I put mad hours in, I'm at the studio  
Off a tab, shorty please try not to ruin it for me  
I'm like "aw here it go" just like I'm Coolio  
Yessir, I just be cooling on 'em  
I got fans overseas and they be rooting for me  
She a fan of me, that's why she gon put it on me  
I go in, that good pussy sound like macaroni  
Lil vibe, I be kicking it with baddies only  
Way she ride that dick, should put a saddle on it  
On my cowboy, I should herd some cattle on 'em  
She in the outfield, I'ma get to batting on it  
Back-back-back, baby won't you back it up  
All we do is fight, then we fuck and make it up  
Didn't mean to make you cry and fuck your makeup up  
I can't read your mind, you gotta...

[Chorus 2]

Tell me what you want  
God damn baby girl, just tell me what you want  
1800 make it hard to tell what's on your mind  
So tell me what you want  
I don't wanna hear you bring that shit up later on  
Go ahead and just reveal it to me  
I don't wanna have to figure out subliminals  
Nah nah, tell me what you want  
It ain't hard to tell me what you want

[Chorus 1]

Tell me what you want  
God damn baby girl, just tell me what you want  
Off the Henny and it's hard to tell what's on your mind  
So tell me what you want  
I don't wanna hear you bring that shit up later on  
Go ahead and just reveal it to me
